INTRODUCTION

This booklet is one of a series that record all available information on Official Railway Postcards. These are the picture postcards that were used, sold, or given away by the various railway companies. All known cards from 1896 to 1947 are recorded, for all the British Isles, together with the French railways poster cards. Railways 15" or less are excluded. Details of reprints, print variations, in fact any recordable differences are all included. The printer of the card is given where this can be identified, with the "big four", McCorquodale, Photochrom, Tuck and Valentine accounting for a very high proportion. These listings update the complete listings found in *The Official Railway Postcard Book*, but in more portable format, and should be used in conjunction with that book for reference to illustrations.

A number of conventions are followed throughout these checklists:

- Information in square brackets [] is descriptive to aid identification, and is not on the card;
- Titles are given in full except for a few very long ones, indicated by.....;
- Punctuation and errors are given exactly as on the card;
- Coloured cards are indicated at the start of the set or group of cards where they occur;
- / in the title means two (or more) pictures, // indicates there is also a picture on the address side;
- 5is used in the checkboxes [] to indicate confirmed cards;
- Elsewhere the presence of a checkbox assumes the existence of the card;
- (V) indicates a vertical (portrait) format card;
- Where it can be identified the name of the artist is given, in *italics*;
- Dates given are either known publication dates or earliest noted postal use (indicated 'by');

There is still much to be discovered, and new information is always welcome. Not all the cards listed have been seen, and there may be differences in titles that should be recorded. Photocopies are especially welcome, and avoid any confusion over descriptions.

CALEDONIAN RAILWAY (CR)

NOTE: Not all the cards in sets 35 and 43 and no cards in sets 30 or 31 have been seen, so some titles may be inaccurate as they are taken from the 1907 list, which does not always agree with what is on the cards. The cards listed for sets 20 & 21 could be reversed as the list just shows each as 6 views of Rothesay. No titles are given in the 1907 list for set 17, and the cards listed are assumed to belong here.

"Glosso" is the name given to the glossy sepia cards, as per the C.R. list; these were not cheap cards, 3d for 4, 4d for 6, and 6d for 8. Occasionally a card is found with the gloss finish missing, (a production fault?). The "Glosso" cards are brown back, "Printed in Germany", unless otherwise noted.

VALENTINE CARDS - Backs and print variations.

There is some duplication of titles within sets as well as with the single cards, and the following notes aim to make identification easier. The circular version of the Company crest used on the Valentine cards is referred to as the seal.

Four distinct back types are identified;

- a. Seal. For INLAND postage... Valentines Series (on most). Sets 5, 8-15. Various colours;
- b. Two seals. Sets 8 & 9. Blue;
- c. Seal. Printed in Great Britain. No Valentines or For Inland... Sets 20 (or 21). Turquoise;
- d. Seal. No Valentines. Printed.. or For Inland... Sets 35-37 and cards sold singly. Blue.

With sets 5, 8-15, all known variations are recorded, showing back colour for type "a" and style of title print.

Most have the railway name or route details in brackets following, and often in a different style to the title; there may be a full stop after the main title, and may be one inside the brackets; "small" indicates lettering about half the size of the card title. Blue and turquoise can be hard to distinguish unless you have one of each in front of you.

Valentine numbers are given where known, but may not appear on all issues of a card.

NATIONAL SERIES

Are by Millar and Lang of Glasgow (sets 1-4, 6 & 7), by May 1905.

The "National" Series appears on the Red Seal (1907) issue, but is only on Blue Crest cards where noted in the list.

1. LOCOMOTIVES Coloured.

1. Blue Crest. No printer's name. (1905);
2. Red Seal. The "National" Series.' on back. (1906).

HARTMANN AND CALEDONIA SERIES Coloured cards with various overprints.

The card numbers are used as catalogue numbers for these series. Overprints on the pictures are given (these are red on red title cards, black on white title cards). The remainder have one of a number of overprints in the correspondence space; in red at the bottom, or black using most of the space; k and q also use the address space. Most have postage details in stamp space, a few with blank stamp spaces have a further overprint. Listed in groups by type. The overprints also may be found on cards from other series.

HIGHLAND RAILWAY (HR)

COLLOTYPE CARDS

Valentines. July 1902 to c.1910. Sets of six, by station, many reprints, apparently done in small numbers on a "as needed" basis. Title changes recorded where known; repeated pictures are noted. An attempt has been made to record all varieties, with confirmed issues noted, with blank check boxes where cards are anticipated. Printers name appears as "Valentine", "Valentines" or "Valentine's", with "...e's" on most later issues. New blocks for many of the printings, but variations on types 3/4 are almost impossible to document.

Red titles except on type 31 which are black.

Types 1 to 10 have "The Highland Railway" in large red letters on the picture.

Types 11 to 31 have the circular crest.

The vignettted border may be the lower or right edge; a number of cards are known in both forms.

Types 1 to 20 have "The Address to be written This Side" below "POST CARD".

Only types 1 to 8 are undivided back.

	<i>Back</i>	<i>Line</i>	<i>Valentines</i>	<i>GB</i>	<i>Print style</i>	<i>Notes</i>

HR-540	"Highland" Hotel, Strathpeffer.	[Sepia photographic card with decorative border]	[•]

INVERGARRY AND FORT AUGUSTUS RAILWAY (HR)

Originally part of the Highland Railway Series, railway name in red below picture. The change from Highland to North British operation resulted in this being blocked out by a red overprint on type 2 cards. Rather than station name, these have the railway name to the right of the title, which is below the picture.

Printed by V. & S., Ltd., D., Number on picture but may be hard to see. May be 5 sets of 6.

WICK AND LYBSTER RAILWAY (HR)

Valentine's collotype cards with titles and railway details in bottom margin, Serial numbers are printed on the picture in red. "The Highland Railway Series" bottom left in red. "Wick and Lybster Light Railway" to right of title. Previously listed as two sets, there are now known to be at least 17 cards.

An original packet for Set 2 (6 cards) has been seen, but with no details of contents. Could be 3 sets of 6.
